## Our School Story

We revisited our scanning data through collaborative dialogue. Check our our [new action post](#) to see what one small action we can take and how we will know it's making a difference in student learning.

**Next steps:** Make purposeful observations to gather evidence on how our "one small action" is helping students communicate their thinking and connections

## Captured Moments

Here is what happened this week, told through the eyes of our Gr. 6/7 **learning detectives**. Students in Div. 1 took time to capture learning moments throughout the week. How might we include all student voices?

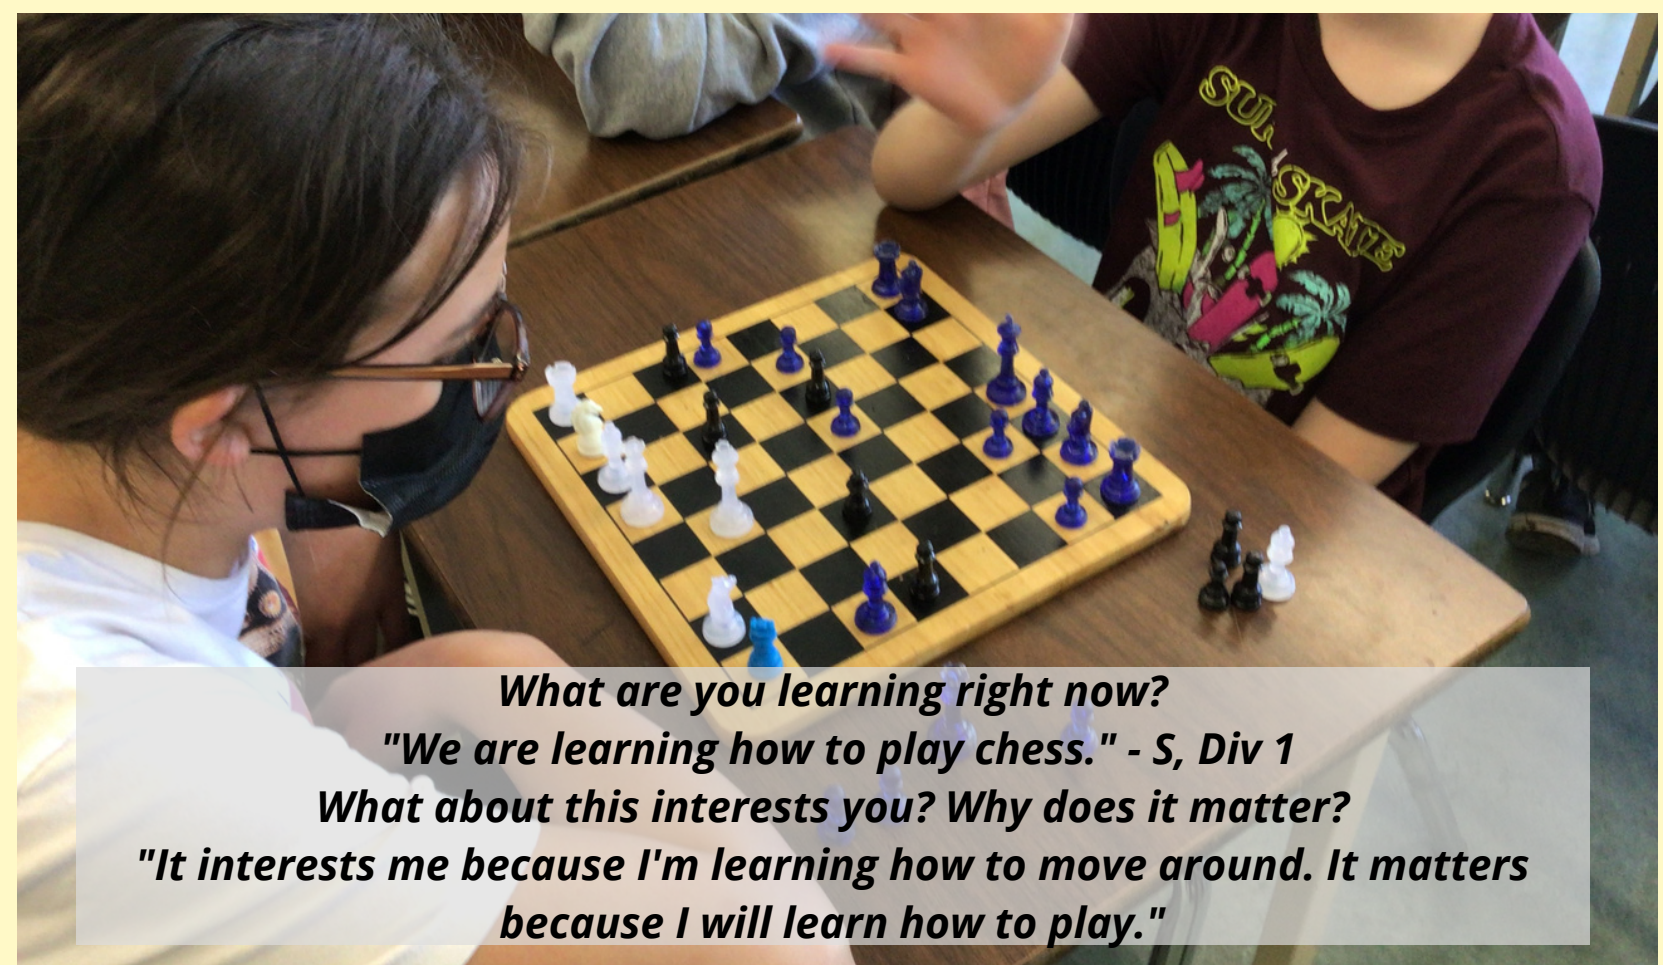

What are you learning right now?

"We are learning the function of each body part." - M, Div 1

What about this interests you? Why does it matter?

"Dissecting the salmon was really fun. It's important to learn about how the parts of the salmon work and how they look."

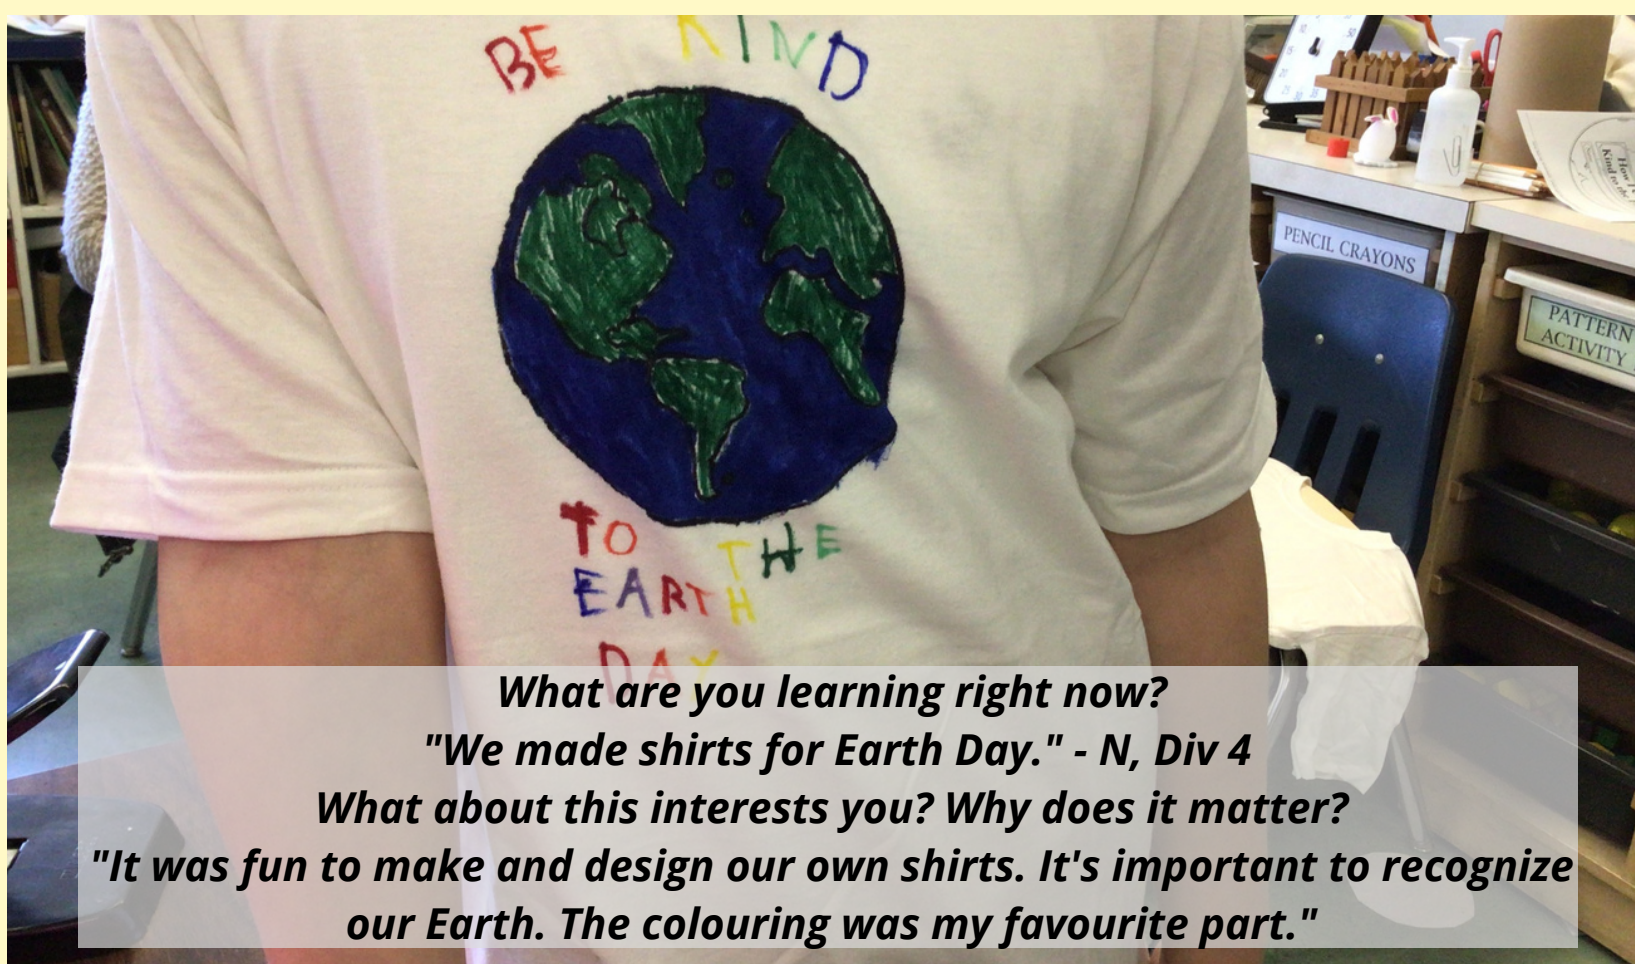

What are you learning right now?

"We are learning how to play chess." - S, Div 1

What about this interests you? Why does it matter?

"It interests me because I'm learning how to move around. It matters because I will learn how to play."

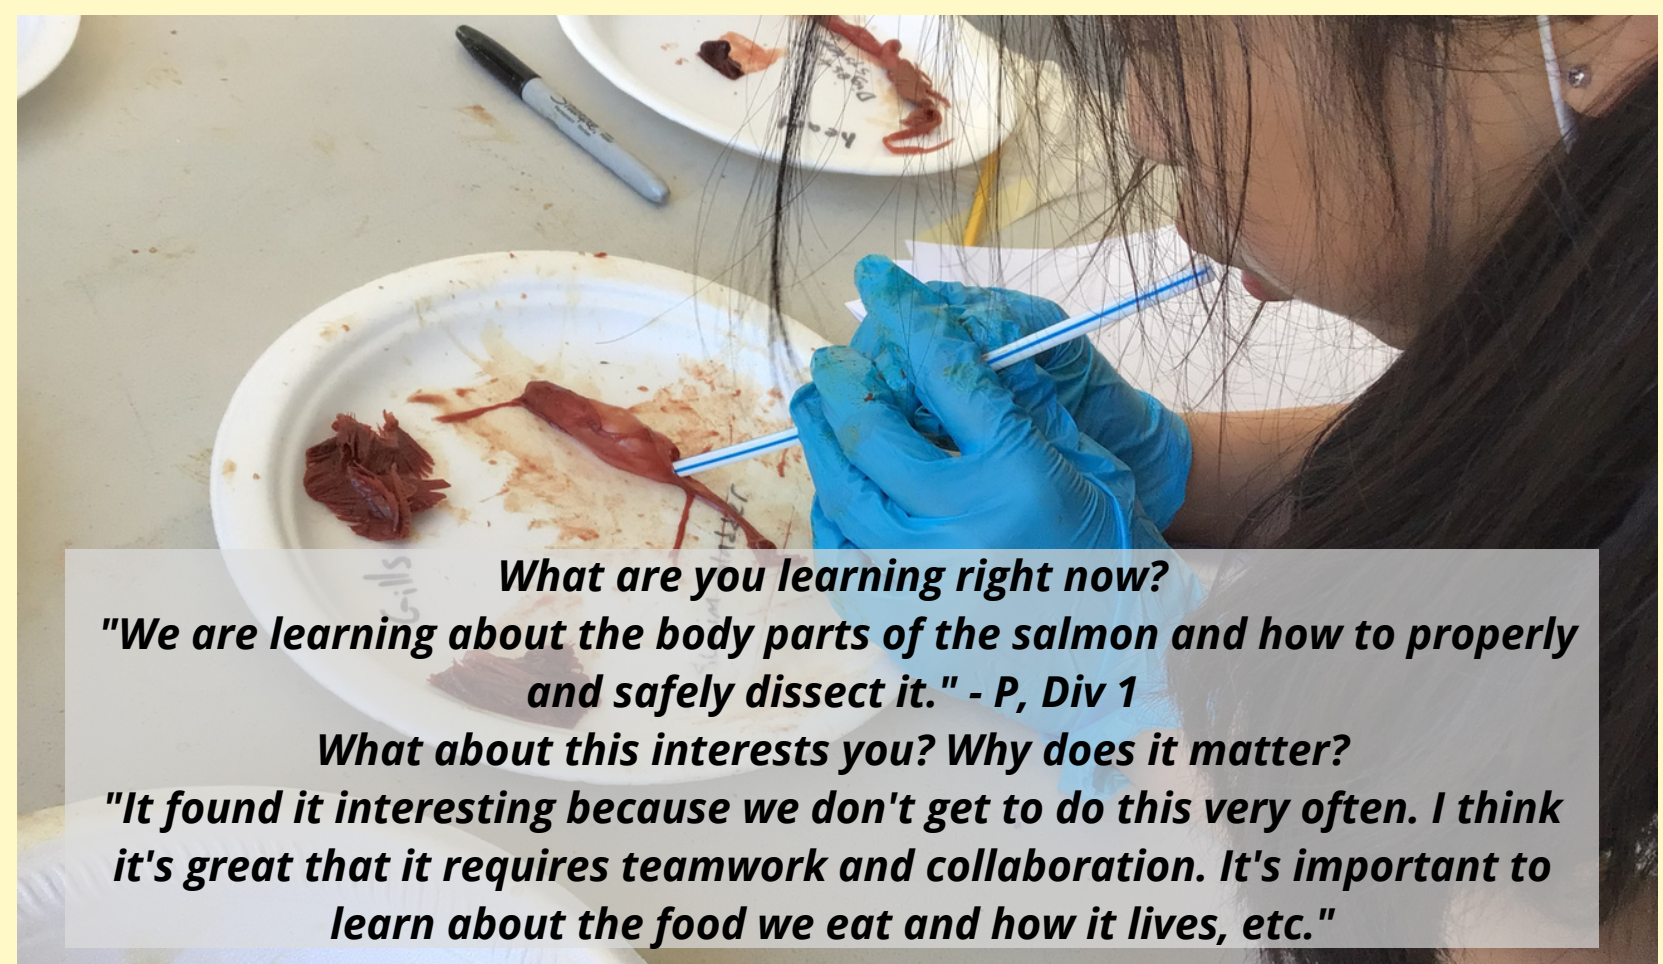

What are you learning right now?

"We made shirts for Earth Day." - N, Div 4

What about this interests you? Why does it matter?

"It was fun to make and design our own shirts. It's important to recognize our Earth. The colouring was my favourite part."

What are you learning right now?

"We are learning about the body parts of the salmon and how to properly and safely dissect it." - P, Div 1

What about this interests you? Why does it matter?

"It found it interesting because we don't get to do this very often. I think it's great that it requires teamwork and collaboration. It's important to learn about the food we eat and how it lives, etc."

# WHAT HAPPENED AT GILMORE THIS WEEK:

Constable Walker visited our school & shared stories of how you help our community! "The greatest tool we have is our words."

Division 1 had a Salmon Dissection Demonstration with Mr. Tolman and Mrs. Hill. Students in Division 1 did their dissection on Friday which is featured in our Captured Moments.

THE RICHMOND SD38 PRESENTS...

## Kind reminders to please complete the Daily Health Check

### Daily Health Check

Everyone going into a school or site must complete a daily health check, including staff, students, and visitors. A daily health check means checking yourself or your child for new symptoms of illness, including symptoms of COVID-19.

Symptoms of illness (including COVID-19) include:

- Fever or chills
- Difficulty breathing
- Runny nose
- Headache
- Body aches
- Cough
- Sore throat
- Sneezing
- Loss of sense of smell or taste
- Loss of appetite
- Extreme fatigue or tiredness
- Nausea or vomiting
- Diarrhea

If you are sick or feel unwell, stay at home. This is important to stop the spread of illness, including COVID-19, in schools and worksites.

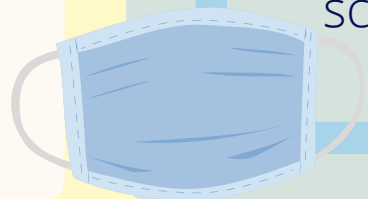

You can attend school/work if:

- Your symptoms are consistent with a previously diagnosed health condition (e.g., seasonal allergies), OR
- You have existing symptoms that have improved to where you feel well enough to return to regular activities, AND
- You are not required to self-isolate, or your self-isolation period is over (based on a positive COVID-19 test result, if taken).

Most up-to-date Daily Health Check can be found [HERE](#)

Helpful COVID-19 Flow Chart is [HERE](#)

Mask wearing is now a matter of personal choice and is no longer mandatory in our schools. Everyone's choice is supported and will continue to be respected.
