- Last Day for students
- Family Picnic for Div 6, 13 and 14

Friday, Jun 27th:

- Admin Day, staff only at school

Week of June 30th to August 29th

SUMMER VACATION!!

See you on Sep 2nd!

Dear Griffin Families,

What a wonderful week at Gilmore! Highlights were the beautiful Grade 7 send off yesterday and the Whitecap's visit today, I don't know who was more excited? The students, Mr. Ferguson or Jeevan Badwal, the 'Caps young midfielder who came to visit. To the parents and school staff that organized the Grade 7 celebration, it was memorable, THANK YOU!

The school year wraps up with 4 days of learning and fun, next week! We have our Indigenous Peoples Day Assembly on Monday, where we are looking forward to acknowledging this important day as a school in our continued practice of truth and reconciliation. We will also be hosting a Year End Assembly to celebrate and say farewell to School Staff who are leaving, please join us @ 9:00a, Wednesday if you have time. There are exciting field trips everyday and final learning updates will be published on MyEd BC, Thursday afterschool.

This is the final What's Up @GilmoreGriffins and I would like to say a final farewell to our Grade 7 Families and wish you well! Continue to stay connected to your child(ren)'s learning through Grade 12, parents matter! 😊

Dodge the rain drops, as needed and have a great weekend!

Be safe, be active and get outside!

Go Griffins,

Mr. Ferguson, Principal

Your PAC needs Volunteers

The Gilmore PAC is urgently
needing members for the
2025 / 2026 School Year.

We are needing support in the following roles

Secretary Events Fundraising
Hot Lunch General Members

Without members the PAC cannot operate and the
school will lose out on needed funds from grants
and fundraising. Activities and events may also be
cancelled.

Please reach out to
gilmorepacsd38@gmail.com
for more information or if you have questions.

WHERE DOES MATH LIVE IN OUR COMMUNITY?

**When you are out and about this summer,
where might you find math?**

Notice, wonder and share ideas together!

Notice patterns:

Where do you see patterns? How could you describe the patterns?
How do the patterns repeat or have regularity? Where do you notice tessellations?

Estimate:

About how many gulls are on the logs? About how many grains of sand do you think are in this pail? About how many trees are in this park? About how many children are playing on the playground? About how steps until we get to the entrance of that building?

Count:

Count the number of pinecones collected at the park, the number of flowers in your neighbour's rosebush, the number of ducks in the pond. For older children, practice counting quantities of things in groups, such as by 2s, 5s or 10s.

Take a number walk:

Where do you notice numbers in our community?
How are numbers used to order, compare or communicate information?

Think about size/scale, shapes, spirals and symmetry:

When observing living things such as leaves, trees and flowers, what shapes do you notice? What types of symmetry can you find? How do living things inspire your thinking about measurement, size and scale? Where can you find spirals in living things?

ideas to support mathematical thinking
with children over the summer holidays
